

Instructions on how to install Roller Shades on the Aurora Pergola

ACROSS THE BEAM

Part **E** or **C** are needed for across the beam (top exterior cross beam) installation

When installing on the back side of the pergola (front to back of the structure) where the retractable canopy locks into the side. Install the shade using the main cross beam (Part **E** or **C**).

BELOW THE BEAM

Parts **A** & **B** are needed below (below the cross beam) installation.

When installing your roller shade below the beam (left to right of the structure) across the five parallel beams along the top. Use the corner posts (Parts **A** & **B**) to install the roller shades.
